Independent Auditor's Report

Board of Directors Louisiana Assessors' Retirement Fund and Subsidiary 3060 Valley Creek Drive Baton Rouge, Louisiana 70808

We have audited the accompanying schedule of employer allocations of Louisiana Assessors' Retirement Fund and Subsidiary ("the Fund") as of and for the year ended September 30, 2015, and the related notes. We have also audited the totals for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense included in the accompanying schedule of pension amounts by employer of Louisiana Assessors' Retirement Fund and Subsidiary as of and for the year ended September 30, 2015, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer in order to design audit

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedule referred to above present fairly, in all material respects, the employer allocations as of September 30, 2015, and the net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for Louisiana Assessors' Retirement Fund and Subsidiary as of and for the year ended September 30, 2015, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The total pension liability for the Louisiana Assessors' Retirement Fund and Subsidiary was \$362,594,812 as of September 30, 2015. The actuarial valuations were based on various assumptions made by the Fund's actuary, as disclosed in Note 6 to the employer schedules. Because actual experience may differ from the assumptions used in the actuarial valuation, there is a risk that the total pension liability at September 30, 2015 could be under or overstated.

Other Matters

As disclosed in Note 10 to the employer schedules, we have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Louisiana Assessors' Retirement Fund and Subsidiary as of and for the year ended September 30, 2015, and our report thereon, dated February 20, 2016, expressed an unmodified opinion on those consolidated financial statements.

Other Information

Our audit was conducted for the purpose of forming an opinion on the employer allocations and employer pension schedules of Louisiana Assessors' Retirement Fund and Subsidiary. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not part of the employer schedules. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the employer schedules. The information has been subjected to the auditing procedures applied in the audit of the employer schedules and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the employer schedules or to the employer schedules themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the employer schedules as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2016 on our consideration of Louisiana Assessors' Retirement Fund and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Louisiana Assessors' Retirement Fund and Subsidiary's internal control over financial reporting and compliance.

Restriction on Use

Our report is intended solely for the information and use of Louisiana Assessors' Retirement Fund and Subsidiary's management, the Board of Trustees, Louisiana Assessors' Retirement Fund and Subsidiary's participating employers as of and for the year ended September 30, 2015 and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

April 18, 2016

(except for Note 11, as to which the date is May 12, 2016)

The Louisiana Assessors' Retirement Fund was created by Act 91 Section 1 of the 1950 regular Legislature Session. The Fund is a cost sharing, multiple-employer, qualified governmental defined benefit pension plan covering assessors and their deputies employed by any parish of the State of Louisiana, under the provisions of Louisiana Revised Statutes 11:1401 through 1494. The plan is a qualified plan as defined by the Internal Revenue Code Section 401(a), effective January 1, 1998. Membership in the Louisiana Assessors' Retirement Fund is a condition of employment for Assessors and their full time employees.

Note 1-Summary of Significant Accounting Policies

The Fund prepares its employer schedules in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27. GASB Statement No. 68 established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources and expenses/expenditures. It provides methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. It also provides methods to calculate participating employer's proportionate share of net pension liability, deferred outflows, deferred inflows, pension expense and amortization periods for deferred outflows and deferred inflows.

A. Basis of Accounting

The Fund's employer schedules are prepared using the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. The member's earnable compensation is attributed to the employer for which the member is employed as of September 30, 2015.

B. Principles of Consolidation

The employer schedules include the accounts of Louisiana Assessors' Retirement Fund and its wholly-owned subsidiary, Louisiana Assessors' Retirement Fund Excess Benefit Account.

C. Plan Fiduciary Net Position

Plan fiduciary net position is a significant component of the Fund's collective net pension liability. The Fund's plan fiduciary net position was determined using the accrual basis of accounting. The Fund's assets, liabilities, revenues, and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements and estimates in the determination of the fair market value of the Fund's investments. Accordingly, actual results may differ from estimated amounts.

D. Fund Employees

The Fund is not allocated a proportionate share of the net pension liability related to its employees. The net pension liability attributed to the Fund's employees is allocated to the remaining employers based on their respective employer allocation percentage.

Note 2-Plan Description

The following brief description of the Louisiana Assessors' Retirement Fund and Subsidiary (collectively referred to as the "Fund") is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

Employer membership data at September 30, 2015 is as follows:

Employer Members	
Louisiana Assessors' offices	64
Louisiana Assessors' Association	_1
	<u>65</u>
Employee Members	
Current retirees and beneficiaries	544
Terminated vested participants	13
Terminated due a refund	79
Active plan participants	<u>_757</u>
	<u>1,393</u>

Plan benefits are as follows:

A. Pension Benefits

Employees who were hired before October 1, 2013, will be eligible for pension benefits once they have either reached the age of fifty-five and have at least twelve years of service or have at least thirty years of service, regardless of age. Employees who were hired on or after October 1, 2013, will be eligible for pension benefits once they have either reached the age of sixty and have at least twelve years of service or have reached the age of fifty-five and have at least thirty years of service.

Employees who became members prior to October 1, 2006, are entitled to annual pension benefits equal to three and one-third percent of their average final compensation based on the 36 consecutive months of highest pay, multiplied by their total years of service, not to exceed 100% of final compensation. Employees who become members on or after October 1, 2006 will have their benefit based on the highest 60 months of consecutive service. Employees may elect to receive their pension benefits in the form of a joint/survivor annuity.

If employees terminate before rendering 12 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the employer's contributions. Benefits are payable over the employees' lives in the form of a monthly annuity. Employees may elect a reduced benefit or any of four options at retirement:

- 1. At death, the beneficiary will receive a lump sum payment based on the present value of the employee's annuity account balance.
- 2. At death, the beneficiary will receive a life annuity based on their reduced retirement allowance.

Note 2-Plan Description (Continued)

A. Pension Benefits (Continued)

- 3. At death, the beneficiary will receive a life annuity equal to one-half of their reduced retirement allowance.
- 4. Any other benefit certified by the actuary and approved by the Board of Trustees that will be equivalent in value to their retirement allowance.

B. Death Benefits

As set forth in R.S. 11:1441, benefits for members who die in service are as follows:

- 1. If a member of the Fund dies in service with less than 12 years of creditable service and leaves a surviving spouse, their accumulated contributions shall be paid to the surviving spouse.
- 2. If a member dies and has 12 or more years of creditable service and is not eligible for retirement, the surviving spouse shall receive an automatic optional benefit which is equal to the joint and survivorship amounts provided in Option 2 as provided for in R.S. 11:1423, which shall cease upon a subsequent remarriage, or a refund of the member's accumulated contributions, whichever the spouse elects to receive.
- 3. If a member dies and is eligible for retirement, the surviving spouse shall receive an automatic optional benefit which is equal to the Option 2 benefits provided for in R.S. 11:1423, which shall not terminate upon a subsequent remarriage.
- 4. Benefits set forth in item number 2 above, shall cease upon remarriage and shall resume upon a subsequent divorce or death of a new spouse. The spouse shall be entitled to receive a monthly benefit equal to the amount being received prior to remarriage.

C. Disability Benefits

The Board of Trustees shall award disability benefits to eligible members who have been officially certified as disabled by the State Medical Disability Board. The disability benefit shall be the lesser of (1) or (2) as set forth below:

- 1. A sum equal to the greater of forty-five percent (45%) of final average compensation, or the member's accrued retirement benefit at the time of termination of employment due to disability; or
- 2. The retirement benefit which would be payable assuming accrued creditable service plus additional accrued service, if any, to the earliest normal retirement age based on final average compensation at the time of termination of employment due to disability.

Upon approval for disability benefits, the member shall exercise an optional retirement allowance as provided in R.S. 11:1423 and no change in the option selected shall be permitted after it has been filed with the board. The retirement option factors shall be the same as those utilized for regular retirement based on the age of the retiree and that of the spouse, had the retiree continued in active service until the earliest normal retirement date.

Note 2-Plan Description (Continued)

D. Back-Deferred Retirement Option Plan (Back-DROP)

In lieu of receiving a normal retirement benefit pursuant to R.S. 11:1421 through 1423, an eligible member of the Fund may elect to retire and have their benefits structured, calculated, and paid as provided in this section.

An active, contributing member of the Fund shall be eligible for Back-DROP only if all of the following apply:

- 1. The member has accrued more service credit than the minimum required for eligibility for a normal retirement benefit.
- 2. The member has attained an age that is greater than the minimum required for eligibility for a normal retirement benefit, if applicable.
- 3. The member has revoked their participation, if any, in the Deferred Retirement Option Plan pursuant to R.S. 11:1456.2.

At the time of retirement, a member who elects to receive a Back-DROP benefit shall select a Back-DROP period to be specified in whole months. The duration of the Back-DROP period shall not exceed the lesser of thirty-six months or the number of months of creditable service accrued after the member first attained eligibility for normal retirement. The Back-DROP period shall be comprised of the most recent calendar days corresponding to the member's employment for which service credit in the Fund accrued.

The Back-DROP benefit shall have two portions: a lump-sum portion and a monthly benefit portion. The member's Back-DROP monthly benefit shall be calculated pursuant to the provisions applicable for service retirement set forth in R.S. 11:1421 through 1423, subject to the following conditions:

- 1. Creditable service shall not include service credit reciprocally recognized pursuant to R.S. 11:142.
- 2. Accrued service at retirement shall be reduced by the Back-DROP.
- 3. Final average compensation shall be calculated by excluding all earnings during the Back-DROP period.
- 4. Contributions received by the Fund during the Back-DROP period and any interest that has accrued on employer and employee contributions received during the period shall remain with the Fund and shall not be refunded to the employee or to the employer.
- 5. The member's Back-DROP monthly benefit shall be calculated based upon the member's age and service and the Fund provisions in effect on the last day of creditable service before the Back-DROP period.
- 6. At retirement, the member's maximum monthly retirement benefit payable as a life annuity shall be equal to the Back-DROP monthly benefit.
- 7. The member may elect to receive a reduced monthly benefit in accordance with the options provided in R.S. 11:1423 based upon the member's age and the age of the member's beneficiary as of the actual effective date of retirement. No change in the option selected or beneficiary shall be permitted after the option is filed with the Board of Trustees.

Note 2-Plan Description (Continued)

D. Back-Deferred Retirement Option Plan (Back-DROP) (Continued)

In addition to the monthly benefit received, the member shall be paid a lump-sum benefit equal to the Back-DROP maximum monthly retirement benefit multiplied by the number of months selected as the Back-DROP period. Cost-of-living adjustments shall not be payable on the member's Back-DROP lump sum.

Upon the death of a member who selected the maximum option pursuant to R.S. 11:1423, the member's named beneficiary or, if none, the member's estate shall receive the deceased member's remaining contributions, less the Back-DROP benefit amount. Upon the death of a member who selected Option 1 pursuant to R.S. 11:1423, the member's named beneficiary or, if none, the member's estate, shall receive the member's annuity savings fund balance as of the member's date of retirement reduced by the portion of the Back-DROP account balance and previously paid retirement benefits that are attributable to the member's annuity payments as provided by the annuity savings fund.

E. Excess Benefit Plan

Under the provisions of this excess benefit plan, a member may receive a benefit equal to the amount by which the member's monthly benefit from the Fund has been reduced because of the limitations of Section 415 of the Internal Revenue Code.

Note 3-Contributions

Contributions for all members are established by statute at 8.0% of earned compensation. The contributions are deducted from the member's salary and remitted by the participating agency.

Administrative costs of the Fund are financed through employer contributions. According to state statute, contributions for all employers are actuarially determined each year. Employer contributions were 13.5% of members' earnings for the year ended September 30, 2015.

The Fund also receives one-fourth of one percent of the property taxes assessed in each parish of the state as well as a state revenue sharing appropriation. According to state statute, in the event that contributions for ad valorem taxes and revenue sharing funds are insufficient to provide for the gross employer actuarially required contribution, the employer is required to make direct contributions as determined by the Public Retirement System's Actuarial Committee. Although the direct employer actuarially required contribution for the fiscal year ended September 30, 2015 is 6.84%, the actual employer contribution rate for the fiscal year ended September 30, 2015 was 13.50%. The actual rate differs from the actuarially required rate due to state statutes that require the contribution rate be calculated and set one year prior to the year effective. The minimum direct employer actuarially required contribution will be 6.75% for fiscal year 2016.

Note 4-Schedule of Employer Allocations

The schedule of employer allocations reports the employer contributions in addition to the employer allocation percentage. The employer contributions are used to determine the proportionate relationship of each employer to all employers of Louisiana Assessors' Retirement Fund and Subsidiary. The allocation percentages were used in calculating each employer's proportionate share of the pension amounts.

The allocation method used in determining each employer's proportion was based on the employer's contribution effort to the plan for the current fiscal year as compared to the total of all employers' contribution effort to the plan for the current fiscal year. The employers' contribution effort was based on actual employer contributions made to the Retirement Fund for the fiscal year ended September 30, 2015.

Note 5-Schedule of Pension Amounts by Employer

The schedule of pension amounts by employer displays each employer's allocation of the net pension liability. The schedule of pension amounts by employer was prepared using the allocations included in the schedule of employer allocations.

Note 6-Actuarial Methods and Assumptions

Net Pension Liability

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

At September 30, 2015, the components of the net pension liability of the Fund's participating employers were:

Total pension liability Plan fiduciary net position	\$ 362,594,812 310,262,528			
Net pension liability	\$ 52,332,284			
Plan fiduciary net position as a percentage of total pension liability	85.57%			

Actuarial Methods and Assumptions

The current year actuarial assumptions utilized for this report are based on the assumptions used in the September 30, 2015 actuarial funding valuation, which (with the exception of mortality) were based on results of an actuarial experience study for the period October 1, 2006 - September 30, 2010, unless otherwise specified in this report. In cases where benefit structures were changed after the study period, assumptions were based on estimates of future experience. All assumptions selected were determined to be reasonable and represent expectations of future experience for the Fund.

Note 6-Actuarial Methods and Assumptions (Continued)

Actuarial Methods and Assumptions (Continued)

Additional information on the actuarial methods and assumptions used as of September 30, 2015 actuarial valuation follows:

Actuarial Cost Method	Entry age normal.
Investment Rate of Return (discount rate)	7.00%, net of pension plan investment expense, including inflation.
Inflation Rate	2.50%.
Salary Increases	5.75%.
Active member, annuitant and beneficiary mortality	RP 2000 Healthy Annuitant Table set forward one year and projected to 2030 for males and females.
Retiree Cost of Living Increases	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.
Disabled Lives Mortality	RP-2000 Disabled Lives Mortality Tables set back five years for males and three years for females.

Discount Rate

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2015, are summarized in the following table.

Real Rate of Return
<u>2015</u>
7.50%
8.50%
2.50%
3.50%
4.50%
6.03%

Note 6-Actuarial Methods and Assumptions (Continued)

The long-term expected rate of return selected for this report by the Fund was 7.00%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from the participating employers and non-employer contributing entities will be made at actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on these assumptions and the other assumptions and methods as specified in this report, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. Thus, the discount rate used to measure the total pension liability was 7.00%.

The effects of certain other changes in the net pension liability are required to be included in pension expense over the current and future periods. The effects on the total pension liability of (1) changes of economic and demographic assumptions or of other inputs and (2) differences between expected and actual experience are required to be included in pension expense in a systematic and rational manner over a closed period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees), determined as of the beginning of the measurement period. The effect on net pension liability of differences between the projected earnings on pension plan investments and actual experience with regard to those earnings is required to be included in pension expense in a systematic and rational manner over a closed period of five years, beginning with the current period. The Expected Remaining Service Lives (ERSL) for 2015 is 6 years.

Note 7-Sensitivity to Changes in Discount Rate

The following presents the net pension liability of the Fund calculated using the discount rate of 7.00%, as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current discount rate (assuming all other assumptions remain unchanged):

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Net pension liability	\$90,124,879	\$ 52,332,284	\$19,927,618

Note 8-Change in Net Pension Liability

The changes in the net pension liability for the year ended September 30, 2015 were recognized in the current reporting period as pension expense except as follows:

Differences between Expected and Actual Experience

Differences between expected and actual experience with regard to economic or demographic factors in the measurement of total pension liability were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

Note 8-Change in Net Pension Liability (Continued)

Differences between Expected and Actual Experience (Continued)

The difference between expected and actual experience resulted in a deferred inflow of resources in the amount of \$1,472,967 for the year ended September 30, 2015. Pension benefit and remaining deferred inflow for the year ended September 30, 2015 was \$1,131,530 and \$4,771,612, respectively.

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period. The difference between projected and actual investment earnings resulted in a deferred outflow of resources in the amount of \$28,265,481 for the year ended September 30, 2015. Pension expense and remaining deferred outflow for the year ended September 30, 2015 was \$5,653,096 and \$22,612,385, respectively. Remaining deferred inflows resulting from this difference recorded in prior years was \$2,681,180 with a pension benefit being recorded in the amount of \$893,727 for the year ended September 30, 2015. The deferred outflow recorded in the current year was netted with the remaining deferred inflow recorded in the prior year which resulted in a deferred outflow being recorded in the amount of \$19,931,205 as of September 30, 2015.

Changes of Assumptions or Other Inputs

Changes of assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. Changes of assumptions or other inputs resulted in a deferred outflow of resources in the amount of \$623,015 for the year ended September 30, 2015. Pension expense and remaining deferred outflow of resources for the year ended September 30, 2015 was \$1,471,529 and \$5,989,952, respectively.

Changes in Proportion

Changes in the employer's proportionate shares of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

Note 9-Contributions – Proportionate Share

Differences between contributions remitted to the Fund and the employer's proportionate share are recognized in pension expense (benefit) using the straight line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the schedule of pension amounts by employer due to differences that could arise between contributions reported by the Fund and contributions reported by the participating employer.

Note 10-Retirement Fund Audit Report

The Louisiana Assessors' Retirement Fund and Subsidiary has issued a stand-alone audit report on their financial statements for the year ended September 30, 2015. Access to the report can be found on the Louisiana Legislative Auditor's website, www.lla.la.gov, or by contacting the Louisiana Assessors' Retirement Fund, Post Office Box 14699, Baton Rouge, Louisiana 70898.

Note 11-Correction of an Error

The formula used to calculate the changes in proportion in the schedule of pension amounts by employer on pages 8 and 9 and the supplementary schedule of amortization on page 25 was incorrect. The schedule of pension amounts by employer and the supplementary schedule of amortization have been corrected.

Note 12-Subsequent Events

The Fund evaluated all subsequent events through April 18, 2016, the date the employer schedules were available to be issued, and May 11, 2016 for Footnote 11. As a result, management noted no subsequent events that required adjustment to, or disclosure in, these employer schedules.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

Members of the Board of Trustees Louisiana Assessors' Retirement Fund and Subsidiary Baton Rouge, Louisiana

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the employer schedules of Louisiana Assessors' Retirement Fund and Subsidiary as of September 30, 2015, and the related notes to the schedules, and have issued our report thereon dated April 18, 2016 (except for Note 11, as to which the date is May 12, 2016).

Internal Control Over Financial Reporting

In planning and performing our audit of the employer schedules, we considered Louisiana Assessors' Retirement Fund and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the employer schedules, but not for the purpose of expressing an opinion on the effectiveness of Louisiana Assessors' Retirement Fund and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's employer schedules, will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Louisiana Assessors' Retirement Fund and Subsidiary's employer schedules are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of employer schedule amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Louisiana Assessors' Retirement Fund and Subsidiary's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Louisiana Assessors' Retirement Fund and Subsidiary's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

April 18, 2016

(except for Note 11, as to which the date is May 12, 2016)

Hawkern, Whigmouth & Carroll LLP

Louisiana Assessors' Retirement Fund and Subsidiary Schedule of Findings and Responses For the Year Ended September 30, 2015

None.

Louisiana Assessors' Retirement Fund and Subsidiary Schedule of Prior Year Findings and Responses For the Prior Year Ended September 30, 2015

2014-001 Completeness of Member Information

Condition:

Nine employees were omitted from the active member data given to the actuary.

Criteria:

The information given to the actuary must be complete and accurate.

Effect:

The salary information for various Assessors' offices was not correct.

Cause:

The information was not verified for completeness and accuracy prior to being submitted to the actuary.

Auditor's Recommendation:

The data given to the actuary must be checked for completeness and accuracy to ensure that actuarial calculations will be appropriate.

Management's Response:

The omission of nine members from the active member data was due to an incorrect service time error in the software system. Once the error was discovered, the Louisiana Assessors' Retirement Fund reported these members to the actuary and to the auditor. Additional work was performed by both the actuary and auditor to ensure completeness of the information.

To avoid future occurrences of this nature, the Louisiana Assessors' Retirement Fund will take the following actions:

- 1. Verify employee/retiree totals on both the actuary export file and the auditor export file at fiscal year-end before any data is provided to anyone.
- 2. Maintain a separate spreadsheet independent of the software system to record new hires and terminations.
- 3. Compare system generated reports to filter out both new hires and terminations on a monthly basis to the manual spreadsheet created to track same to check for any variances.

Status:

This finding has been resolved.
